1924 PRICE LIST

Nursery Stock Greenhouse and Bedding Plants

**Scott Brothers
ELMSFORD NURSERIES
ELMSFORD, N. Y.**

Introductory

In presenting our price list for 1924, we again take this opportunity to thank our customers for their liberal support and patronage, and to assure them that their orders will receive as careful attention in the future as they have in the past.

We have 60 acres of land in Elmsford, most of which is planted in Nursery Stock. The most exacting buyers will find with us a fairly complete assortment.

DELIVERY. The prices herein named are at our Nursery, or F. O. B. the Express and Railroad Station at Elmsford, unless otherwise agreed. Where delivery is made by truck a charge sufficient to cover cost will be made.

PACKING. A nominal charge will be made for labor and materials used.

GUARANTEE. We do not guarantee our stock to live and cannot assume responsibility for failure due to unfavorable planting or growing conditions. Our stock is fully up to grade; has been several times transplanted and properly handled. No one should experience any difficulty in making it live. All claims for errors must be made within six days after receipt of goods, or such claims will not be considered.

Stock will be supplied at prices named herein. Where dozen or hundred rates are quoted, six of any one variety will be supplied at dozen rates, twenty-five of any one variety at hundred rates, otherwise, unit rates will prevail.

Prices quoted are for first class stock, but where specimens are personally selected by the purchaser or his representative, they will be charged for according to their individual values.

We have, at time of printing, a full stock of all items listed herein. The quantities in some cases are limited, particularly in the large sized EVER-GREENS. In order to avoid disappointment, it is advisable to order early.

GRASS SEED

ELMSFORD EVERGREEN LAWN GRASS MIXTURE—We have made an extensive study of grasses, and have here combined in one mixture several of the very best kinds in such proportions as will give the best results. Some of the kind are naturally early and give the lawn a bright color as soon as Spring opens up. Others will stand the heat and drought of Summer, and others again will keep growing until late in the Fall. We consider our "Elmsford Evergreen Mixture" to be as good as any on the market to-day. For new lawns, sow 85 to 100 pounds to the acre.

Per bushel (20 pounds): \$7.50.

THE ELMSFORD SHADY SPOT GRASS MIXTURE—A combination of grasses that naturally grow in shady places, of guaranteed purity and free from weeds.

Per bushel: \$8.50.

PERMANENT PASTURE MIXTURE—A combination of various grasses recognized for good pasturing qualities—a combination that will keep growing from early Spring until late in the fall. Sow 50 to 75 pounds per acre. Bushel (14 pounds): \$5.00.

HAY MIXTURE—A superior mixture, suitable for hay and permanent pasture, of guaranteed purity. Sow 40 pounds per acre.

Per bushel (14 pounds): \$5.00.

LANDSCAPE DEPARTMENT

The Landscape Department is an important branch of the Nursery business. We are well equipped to undertake the development of either large or small estates.

The individual members of our firm have had a life experience in this work and are well qualified to give practical advice in the development of new places, or the renovation and care of old ones. We have developed and renovated a number of new and old places; the names of the owners will be given on request. We have moved a quantity of large trees with great success and are fully equipped to take care of this branch of the work. We have also made an extensive study of Rockery work and have done a number of large jobs of this nature, which we will be pleased to show to interested customers.

Estimates and specifications on any of the above work will be cheerfully given.
